

RADIATION THERAPY PROGRAM STANDARDS

Reviewed 2017 Based on the JRCERT Accreditation Standards

Standard One: Integrity

The program demonstrates integrity in the following: representations to communities of interest and the public, pursuit of fair and equitable academic practices, and treatment of, and respect for, students, faculty, and staff.

Standard Two: Resources

The program has sufficient resources to support the quality and effectiveness of the educational process.

Standard Three: Curriculum and Academic Practices

The program's curriculum and academic practices prepare students for professional practice.

Standard Four: Health and Safety

The program's policies and procedures promote the health, safety, and optimal use of radiation for students, patients, and the general public.

Standard Five: Assessment

The program develops and implements a system of planning and evaluation of student learning and program effectiveness outcomes in support of its mission.

Standard Six: Institutional/Programmatic Data

The program complies with JRCERT policies, procedures, and **STANDARDS** to achieve and maintain specialized accreditation.

ACCREDITATION

The Texas State University Radiation Therapy Program has established accreditation by the Joint Review Committee on Education in Radiologic Technology (JRCERT). The Standards for an Accredited Educational Program in Radiological Science may also be available by writing to the JRCERT (contact information is provided on the first page of this handbook).
