Statistics Seminar Series

**In-class statistical software: Comparison of different packages**

Friday, March 13, 2020
12:00 – 1:00  Derr 122

Abstract: We continue the series of talks about the use of emerging statistical packages in lower and upper level Probability and Statistics classes. In this talk, we will share our experience about using JMP and StatKey for Elementary Statistics class, and STATA for upper level courses. Participants will be encouraged to provide feedback on how improve the experience of students with these packages or other statistical software.

Dr. Alejandra Sorto is a Professor at the Department of Mathematics, Texas State University.
Dr. Vera Ioudina is a Senior Lecturer at the Department of Mathematics, Texas State University.
