LAMAR INSTITUTE OF TECHNOLOGY
BEAUMONT, TEXAS
WORKFORCE AND ALLIED HEALTH TRAINING CENTER
RFQ No.: 758-22-02010**

SECTION 1 – GENERAL INFORMATION & REQUIREMENTS

- 1.1 **GENERAL INFORMATION:** The Texas State University System (“Owner”), on behalf of **Lamar Institute of Technology**, is soliciting Statements of Qualifications (“Qualifications”) for the selection of an Architect/Engineer (“A/E”) firm for design of the **Workforce and Allied Health Training Center** project (“Project”) on the Lamar Institute of Technology, Beaumont, Texas campus, in accordance with the terms, conditions, and requirements set forth in this Request for Qualifications (“RFQ”). Prospective A/E firms are hereinafter referred to as “Respondents”.
- 1.1.1 Collecting Qualifications in response to this RFQ is the first step in selecting an A/E firm. This RFQ provides the information necessary for Respondents to prepare and submit Qualifications for consideration by the Owner. In the next step the Owner will determine an initial ranking of the Respondents. If the initial ranking of the Respondents is reasonably conclusive, the Owner may make a “most qualified” selection based upon the written Qualifications only. If not, then the Owner may conduct interviews with a “short list” of Respondents.
- 1.1.2 The Owner may select up to five (5) of the top ranked qualified Respondents to participate in an interview with the Owner to confirm and clarify the Qualifications submitted and to answer additional questions. The Owner will then rank the interviewed Respondents in order to determine a single most qualified Respondent.
- 1.1.3 After selecting the most qualified Respondent the Owner will negotiate the detailed professional services to be provided by the A/E and a suitable fee for those services. The Owner will request a fee proposal from the most qualified Respondent, with supporting information demonstrating that the requested fee is justified by the level of effort (and related personnel costs) required to provide the services necessary for the design of the Project. Potential Respondents should be aware that, except in unusual cases, the Owner does not consider billable time incurred while traveling to and from the Project site, Owner’s offices, or Board of Regents meetings, as necessary to the completion of the Project. Potential Respondents whose offices are located where such time-consuming travel will be regularly required in the performance of services for the Project, should consider this policy when deciding whether or not to submit their Qualifications.
- 1.2 **PUBLIC INFORMATION:** All information, documentation, and other materials submitted in response to this solicitation are considered non-confidential and/or non-proprietary and are subject to public disclosure under the Texas Public Information Act (*Texas Government Code*, Chapter 552.001, *et seq.*) after the solicitation is completed. The Owner complies with all statutes, court decisions, and opinions of the Texas Attorney General with respect to disclosure of RFQ information. Additionally, pursuant to the provisions of *Texas Government Code* Section 2261.253, the contract resulting from this solicitation will be posted on the Owner’s website.
- 1.3 **TYPE OF CONTRACT:** Any contract resulting from this solicitation will be in the form of the Owner’s Standard Architect/Engineer Agreement for Construction Manager-at-Risk projects, a

copy of which is posted on Owner's website at: <http://www.tsus.edu/offices/finance/capital-projects.html> The Agreement should be viewed as a draft and is subject to change.

1.4 CLARIFICATIONS AND INTERPRETATIONS: Discrepancies, omissions or doubts as to the meaning of RFQ documents shall be communicated in writing to the Owner for interpretation. Any responses to inquiries, clarifications or interpretations of this RFQ that materially affect or change its requirements will be posted by the Owner as written addendum. All such addenda issued by the Owner before the proposals are due, become part of the RFQ. Respondents shall acknowledge receipt of and incorporate each addendum in its Qualifications. Respondents shall be required to consider only those clarifications and interpretations that the Owner issues by addenda. Interpretations or clarifications in any other form, including oral statements, will not be binding on the Owner and should not be relied on in preparing Qualifications. It is the responsibility of all Respondents to check the status of formal addenda five (5) days prior to the submittal deadline. The deadline for the receipt of written questions and submittal deadline is stated in Section 2.5.

1.4.1 ADDENDA AND AWARD INFORMATION, WILL BE ISSUED BY THE OWNER FOR THIS RFQ VIA THE ELECTRONIC BUSINESS DAILY WEBSITE AT THE FOLLOWING LINK: <http://www.txsmartbuy.com/sp> REFERENCE "BOARD OF REGENTS/TEXAS STATE UNIVERSITY SYSTEMS – 758" AND THE RFQ NUMBER PROVIDED IN THIS RFQ.

1.5 SUBMISSION OF QUALIFICATIONS:

1.5.1 The Qualifications must be received **at the address specified in Section 1.5.2 prior to the date and time deadline.** Please note that overnight deliveries such as FedEx and UPS arrive at a central campus location but are not usually delivered to the specified location until after the time deadline. Respondents are advised to use other methods of delivery or, if using an overnight delivery service, to send the Qualifications a day earlier than usual. The Owner will not consider any response to this solicitation that is not received at the address specified by the deadline, regardless of whether it has been received by the University.

The top five (5) or fewer ranked Respondents may be selected by the Owner for further consideration by participating in an interview wherein Qualifications will be presented and examined in further detail and where questions will be posed by the Selection Committee and answered by the Respondent.
- 1.7.1 Qualifications submittals should not include any information regarding Respondent's proposed fees, pricing, or other compensation considerations as these will not be a factor in the selection of the most qualified Respondent.
- 1.8 OWNER'S RESERVATION OF RIGHTS: The Owner may evaluate the Qualifications based on the anticipated completion of all or any portion of the Project. The Owner reserves the right to divide the Project into multiple parts, to reject any and all Qualifications and re-solicit for new Qualifications, or to reject any and all submissions and temporarily or permanently abandon the Project. Accordingly, specific plans and representations by Respondents that appear to facilitate the State's commitment to supporting HUB enterprises are required in the selection process. SECTION 2 – EXECUTIVE SUMMARY

- 2.1 HISTORICAL BACKGROUND: Lamar Institute of Technology (“LIT”) traces its roots back to September 17, 1923 when South Park Junior College opened with 125 students and a faculty of 14. In 1932, separate facilities were provided, and the name of the institution was changed to Lamar College, to honor Mirabeau B. Lamar, second president of the Republic of Texas and the “Father of Education” in Texas.

On September 1, 1995, the Institute of Technology was established as an educational center of Lamar University and a Member of The Texas State University System. The Texas Legislature changed the name of the institution to Lamar Institute of Technology in 1999.

Lamar Institute of Technology is a special purpose postsecondary coeducational organization, a two-year technical “Institute” that primarily offers associate degrees, certificates, and non-credit workforce skills training. We focus on teaching excellence, student success and community engagement. We are an open-door postsecondary institution ready to serve all students. LIT provides a curriculum consisting of over 65 degree and certificate programs covering a wide range

of career and technical educational opportunities. We are accredited by the Southern Association of Colleges and Schools Commission on Colleges. The LIT campus in Beaumont is about 90 miles east of Houston and about 25 miles west of Louisiana.

2.2 **MISSION STATEMENT:** Lamar Institute of Technology provides innovative teaching and learning for tomorrow’s workforce.

2.3 **PROJECT DESCRIPTION, SCOPE AND BUDGET:** The new Workforce and Allied Health Training Center is envisioned as a two-story building with an embedded high-bay instructional space. The first floor will be a welcoming space with the main building lobby and student lounge. It will also include the majority of the workforce instructional space and simulation suite. The second floor will be dedicated to allied health and contain the skills labs, pharmacy technician labs, and main testing room. The new center will provide key capabilities for expanding workforce offerings, and the proposed allied health nursing program.

The proposed building is intended to be oriented east-west on the site with its main public academic entry access from the western side, near the quad, and the industry partner entry to the eastern side. The site organization biases placing the more technical spaces, such as the industry flex closer to the southeast corner, and the general instructional spaces near the building entrance. The building lobby is envisioned as a two story volume space. A unique feature discussed in programming is the ability to look down into the industry flex lab from the second floor.

The total Construction Cost Limitation for the project is \$27,813,000.

2.4 **FACILITY PROGRAM:** The Architectural Space Program (Program of Requirements) is available as Attachment 1 on the ESBD web page.
