

Texas State University–San Marcos

Department of Agriculture

General Agriculture

The general agriculture major provides a broad exposure to the various aspects of the agriculture industry. The curriculum surveys all the areas of agriculture and allows students flexibility to take additional courses in an area of interest. This broad exposure allows students freedom in their career planning. Students are prepared for careers in a wide variety of areas in the agriculture and production industry because of their broad educational background and experiences.

Examples of Course Work

- ✓ Introduction to Agricultural Engineering
- ✓ Computer Applications in Agriculture
- ✓ Agricultural Business Management
- ✓ Metals and Welding
- ✓ Environmental Soil Management Systems
- ✓ Greenhouse and Nursery Management

Employment Opportunities

- ✓ Park Managers
- ✓ Conservation Officers
- ✓ Journalists
- ✓ Youth Program Directors
- ✓ Extension Service Agents

Career Preparation

Students in the General Agriculture program have the opportunity to prepare themselves with a variety of activities for a successful career after graduation. Students can take part in an internship program that allows them to gain experience while still completing their degree here at Texas State. Internships allow students to apply their education, gain work experience and network with potential employers. Students in the Department of Agriculture at Texas State are also encouraged to actively participate in student organizations sponsored by the department and university. Participation in student activities is an excellent way to develop leadership and teamwork skills. When students are close to completing their degree, the Texas State Career Services Office and department faculty are there to provide assistance and advice for students during the job search process.

Advising

The College of Applied Arts Advising Center will help ensure that students complete the appropriate coursework to finish their degree. Faculty also develop personal relationships with their students, so students often seek advice from their instructors or faculty advisor. You can make an appointment with the advising center by calling 512-245-1490.

Department of Agriculture

The Department of Agriculture at Texas State offers students a quality education with personal attention. Students learn from faculty members in a variety of settings on and off campus. A modern Agriculture Building with well-equipped classrooms and laboratories in addition to our 4,200-acre Freeman Ranch and 17-acre horticulture center provide plenty of opportunities for students to learn and apply their knowledge to real world situations.

Experience it Yourself

We invite you to make a trip to the Texas State campus and experience the Department of Agriculture for yourself. We will set up a visit that will suit your interests. Students can visit with department faculty, staff and students in addition to meeting with an admissions counselor, touring campus, visiting residence halls, attending a class and touring the department. When you are ready for the Texas State experience, just contact the Departmental office at 512-245-2130 to set up your appointment.
