Search Committee

A search committee is a very important part of an effective staff search process. The committee is made up of one or more individuals who know and understand the job requirements and preferred requirements of a position and are willing to assure the selected applicant has the qualifications to promote the mission and goals of the department and the university. When selecting the committee it is recommended there be a diverse group of members reviewing all applicant documents so as to help get the most qualified individual for the position.

Job Description

The job description should outline the position taking into consideration the department’s needs. Be sure required qualifications do not limit the pool of applicants by being too explicit as some descriptions could unintentionally exclude women or minority candidates.

Required Language for Position Announcements

Texas State University Position Announcements must include:

“Texas State University seeks candidates whose professional background includes embracing a diversity of people and ideas, a spirit of inclusiveness, a global perspective, and a commitment to community-building. As a federally designated Hispanic Serving Institution, we are especially interested in applicants who share a commitment to equity, and the high-quality education of students from historically underserved and systematically marginalized communities. Individuals from historically underrepresented groups are strongly encouraged to apply.”

Posting the Job Announcement

To enlarge the applicant pool, consideration should be given to posting on multiple websites specifically at underrepresented minorities and women. They will help enlarge the pool of applicants, but also help show the university’s commitment to diversity, equity and inclusion.

For actual fees charged request quote on the requisition.
Advertising Fees

Human Resources is invoiced for all advertising. Once the invoice comes in and the support tear sheets are available, HR will process the charges and send to accounts payable with the proper cost center and fund information provided on the requisition so the department can be charged accordingly.

Monster invoicing are done by IDT as HR paid for the contract out of their budget so department is charged a reasonable fee to try and recoup some of the budget spent.
