SYNOPSIS

Act 1
A murder is investigated at Frl. Doktor's sanatorium. The Inspector demands to see the culprit and meets two patients who believe themselves to be famous physicists. Frl. Doktor informs Nurse Boll that men will replace her female nurses. The Rose family arrives to visit Möbius, a long-time patient. Nurse Monika confesses her love to him afterward, with shocking consequences.

Act 2
The sanatorium hosts yet another crime scene investigation. The Inspector returns in time to meet the newly hired male nurses. Characters both mad and sane are revealed to have ulterior motives and conspiracy plots.
