Internship FINAL Reflection Assignment Guidelines

Please thoroughly address the following topics in a typed, 3-5 page professionally written reflection, to be submitted to your University Student Teaching Faculty by the assigned date. The topics do not need to be addressed in any particular order, but all should be included. Support your reflection with specific experiences or examples from your year-long internship.

- Summarize your internship experience overall, including a self-evaluation of both your learning and growth as an educator and the learning and growth made by your students over the course of the year.
- Choose 2-3 components from the Danielson Framework (Domains 1-3) which you believe have become your personal strengths as an educator. Cite the component domain and number, and reflect upon your growth and what contributed to your growth over the course of the year.
- Choose one component from the Danielson Framework (Domains 1-3) which you believe still challenges you as an educator. Cite the component domain and number, and reflect upon the specific challenges you face. Include a discussion of your goals for learning and improvement in this area, as well as your plan of action.
- Share a specific professional development event that you experienced (in-service, online learning, reading a book, etc.) and how implementation of what you learned changed your practice and affected your students' learning (Domain 4, component 4e).
- Choose one from the following Domain 4 components, and reflect upon how you have grown your practice in
  - your ability to communicate with families (4c),
  - your participation in a professional community (4d),
  - or your ability to show professionalism (4f).
