

Effective fall 2016 (not before then) the prerequisites for the following classes will change:

MC 4313 will no longer require MC 3383 as a prerequisite. It will still require full-major status, MC 1313 and MC 3343 as prerequisites.

MC 4320 will require MC 3360 and one class from: MC 3390, MC 4315 or MC 4382U/MC 4326 (MC 4382U will become MC 4326 in fall 2016) as new prerequisites in addition to the current prerequisites of full-major status and MC 4313.

Fall 2016 will be a transitional semester. If you have full-major status and have or will have completed MC 4313 BEFORE the fall 2016 semester and are a fall 2016 candidate for graduation you will be allowed to follow the current prerequisites for MC 4320 the fall 2016 semester only.

You will need to submit a [PR .Request Form](#)

For Spring 2017 and thereafter the new prerequisites will be enforced.
