8 - If you'd like to provide any additional information regarding your experience at SLAC, please do so below.

Presley and Brianna are amazing. I enjoy working with both of them!

Excellent job, thank you.

I think you need more physics tutors with a command of the subject. Many of the people that are tutoring physics are pretty rusty at the subject matter and when I ask them questions, they don't remember and have to google it or, I know it better than they do. This happens pretty regularly.

I would suggest getting a couple more physics tutors!

Taylor, and some of the others have been very helpful with my time spent at SLAC.

My tutor is fantastic!

This was my first time attending SLAC for help and it helped me out on my homework assignment a lot!

It's very casual, I can just work on my assignments and ask for help when I need it.

Get more math tutors.

I'm a frequent visitor of the in person SLAC lab because that is the way I learn difficult subjects best. The staff here are always welcoming, helpful, and patient with me. I love this service.

There's not a specific tutor for Business Calc 1329, but the tutor who said he could help was rude, dismissive, and impatient. I would be in mid-sentence asking how to solve a problem and he would either check his phone or turn his attention away and talk to his girlfriend or be concerned about the food that was being given to him. This happened throughout the session. He eventually asked me twice when I would be leaving. At this point I felt uncomfortable. I wasted three hours of my time (and clearly his) and left.

I think y'all are doing a great job.

Heather Box was great, I appreciate her assistance.

If I do good this semester, I may try to become an accounting tutor :^)

Peter is amazing.

Peter is amazing!

There are hardly ever math tutors.

Give Hannah cook a raise.

Didn't have anyone there that had knowledge in the subject matter, differential equations.

Thank you :^)

I wish there were more tutors available in person.

All the tutors are great, I feel like so many more students should attend this awesome free service!

Good.

Doing great.
