Commencement Address

HENRY CUELLAR

Saturday, August 13, 2005

9:30 a.m.

Henry Cuellar was sworn in as United States Congressman for the 28th District in Texas in January 2005, previously serving as the Texas Secretary of State and for fourteen years as a member of the Texas Legislature. Congressman Cuellar is a current member of both the House Budget Committee and the House Agriculture Committee.

As Texas Secretary of State and State Representative, Henry Cuellar made his mark as a champion of education, healthcare, and in creating a strong, diversified Texas economy. Congressman Cuellar led efforts to increase funding and accountability for public education and authored the TEXAS Grant, which provides more than \$300 million to college-bound students. Congressman Cuellar also secured funding to establish the first state-funded youth adolescent detoxification center in Texas. It was named in his honor, the Dr. Henry Cuellar Youth Center.

While serving in the Texas House Appropriations Committee, Congressman Cuellar helped secure millions of dollars for primary health care and allied health and nursing; created the first pilot program to provide health insurance for children; and co-sponsored the statewide Children's Health Insurance Program (CHIP). Under his direction, health care funding increased from \$77 million in 1991 to \$1.5 billion in 2000. Congressman Cuellar also championed health and nutrition programs for mothers and children.

Throughout his career, Congressman Cuellar has worked to make government more efficient, effective, and accountable to taxpayers. To protect local school, county, and city budgets, Congressman Cuellar passed the first Texas law to stop unfunded state mandates, which merited him the "Champion of the Limited Government Award" by the Texas Public Policy Foundation. In 1999, Congressman Cuellar co-sponsored the largest tax cut in Texas history-close to \$2 billion in property, sales, and franchise tax cuts. The National Conference of State Legislatures has called the Texas budget system the most advanced in the country.

Congressman Cuellar received his associate's degree in Political Science, Summa Cum Laude, from Laredo Community College. He then attended Georgetown University in Washington, D.C. for his bachelor's degree in Foreign Service, graduating Cum Laude. He later earned a law degree from the University of Texas at Austin. Congressman Cuellar studied at the Universidad Pan Americana in Mexico City and then earned a Master's in International Trade at Texas A&M International University. He also holds a Ph.D. in Government from the University of Texas at Austin.

Congressman Cuellar and his wife, Imelda, have two daughters, Christina Alexandra and Catherine Ann.

COMMENCEMENT REGALIA

The gowns, caps, and hoods worn at university functions date back to the early days of the oldest universities in the Middle Ages. Monks and students wore them to keep warm in the damp and drafty twelfth century halls of learning. This traditional academic dress has been gradually revised to the modern form you see today.

All gowns have a semi-stiff yoke, long pleated front, and intricate shirring across the shoulders and back. The bachelor's gown is worn closed, reaches between 8 and 10 inches from the floor, and has long sleeves from which the arms exit at the wrist. The master's gown may be worn open or closed and has long pointed sleeves closed at the end, the forearm coming through a slit near the elbow, with the flowing sleeve extending down the thigh. The doctor's gown may also be worn either open or closed but is distinguished by broad velvet panels down the front and by three velvet bars on the full bell-shaped sleeves. This velvet trimming may be either black or the color distinctive of the field of learning.

The black cap with maroon and gold tassel is worn by holders of a bachelor's and master's degree; the black velvet tam with gold tassel is worn by holders of a doctoral degree.

The hood (usually not worn by holders of the bachelor's degree) is a black shell, silk-lined in the color or colors of the institution conferring the degree. The colors of Texas State University-San Marcos are shown by a maroon lining crossed with a gold chevron. The velvet border of the hood is the color signifying the field of learning in which the degree was earned and not in the department in which the major was done. Thus, a degree conferred as master of education with a major in physical education requires the light blue of education rather than the sage of physical education. Similarly, the "doctor of philosophy" degree requires the royal of philosophy, not the color of the department in which the major of study was done.

Colors signifying various fields of learning, which you may see today, include:

Agriculture.....	Maize	Medicine	Green
Architecture	Blue Lilac	Music.....	Pink
Arts, Letters, Humanities.....	White	Nursing.....	Apricot
Commerce, Accountancy, Business	Drab	Oratory (Speech)	Silver Grey
Dentistry.....	Lilac	Pharmacy.....	Olive

Journalism	Crimson	Social Work.....	Citron
Law	Purple	Theology.....	Red
Library Science	Lemon	Veterinary Science.....	Gray

The universities represented by colors lining the hoods worn by our faculty are numerous; two examples are Baylor's dark green and gold, and Texas A&M's maroon and white. Please feel free to ask individual faculty members which institutions their colors represent.

THE CEREMONIAL MACE

The use of a mace during university graduation ceremonies combines symbolic communication with the principle of vested authority at the most traditional and sacred of academic celebrations. The mace emphasizes the principle for which institutions of higher learning stand. It is a visible symbol of both the specific history of the institution as well as the more universal commitment of high quality in education, and the search for truth and beauty through the interaction of many academic disciplines. The mace bearer leads the faculty procession during a formal graduation ceremony. The mace, as a symbol of authority, adds meaning and dignity to the commencement ritual. Throughout the ceremony it reminds participants and spectators that education is one of the single most important aspects of freedom and democratic government.

THE TEXAS STATE UNIVERSITY-SAN MARCOS MACE

The top of a mace is usually adorned with a symbol that is particularly significant to its university. It is appropriate that the Indian Blanket should be the symbol on top of the Texas State mace. The Indian Blanket, a native Texas wildflower technically known as the *Gaillardia pulchella*, holds a special significance for our university, since the school colors were selected from it. The mace flower was hand carved from four types of wood: osage orange, mesquite, pecan, and dark walnut, which are all native to the state of Texas. The top of the mace is solid pecan with inlaid bronze investment castings. Divided into eight sections, the sphere represents all of the colleges at Texas State. Each section features silicon bronze investment cast carvings that exemplify the academic interests of the departments making up each college. The spherical shape of the mace head is intended to convey a message about the international nature of the university and the interactive nature of academic interests that exist among the colleges. Since the strength of a sphere is well documented in the study of solid geometry, strength should be clearly associated with the interactive nature of each college represented. Comprising the main body of the mace, the stem is turned and hand carved from native Texas pecan. The wide area of contact between the stem and the sphere emphasizes the support for higher education provided by the state of Texas. Hand carved shapes of the state of Texas, in the upper portion of the stem, reinforce the concept of support. The stand features a piece of Texas pink granite that was part of the cornerstone material from our library. The wood support on the base is native Texas mesquite that combines the beauty of both sap and heartwood. The mace was designed and built by the Department of Engineering and Technology in 1990.
