**Q8 - If you'd like to provide any additional information regarding your experience at SLAC, please do so below.**

Need to hire tutors with flexible availability.

Poor sanitation of tables and chairs.

Need physics tutors. Chem tutors are not much help for physics content

Pressley is amazing to work with very patient and very knowledgeable with writing.

Knowledgeable and helped me extremely well.

SLAC has been a huge help for me in gaining knowledge of physics

Presley is very easy-going and easy to work with. My hope is that she'll be here for the next couple semesters.

Lena is amazing and has literally helped me so much in Intermediate Accounting I. Thank you!

The WiFi in SLAC never works. You can see how this is a major problem considering that we need it so see our homework.

Great

Laura, Payton, Lena, and Sam have all helped my grade significantly and continue to help me grow academically.

Tutor Matt was very helpful and amazing!

Love Laura

Need a tutor for Business Calc! Like an official one! Class is called MATH 1329

Sanitation of tables and chairs is not being executed properly. Although tables are being wiped every time someone leaves, it's done poorly.

I really enjoy working with Presley and Kaylee. They are always so friendly. I feel like the effort's always there and they really go through my paper and correct what needs to be corrected.

The SLAC lab has helped me so much! The only issue I've had is tutors being late to their shift and being without help. When they are here, they're very helpful.

Kalee of the writing center is an excellent asset. She has helped a lot.

Good

I think all the tutors and staff are doing great!

More math tutors.

I am in high level challenging classes and I rarely have a tutor that seems confident in their assistance.

My overall experience in SLAC has been very pleasing, but I must emphasize that sometimes (especially the weekdays) there seem to be fewer tutors, especially in the writing department it would be very helpful if there are more writing tutors available via zoom but other than that I'm very pleased with the service.

I wanted to make a comment on how much I struggle this semester for a lack of a tutor for Intermediate level economic class. I went three times to SLAC trying to find help because I was not understanding my professor at all, and during this times that everything is online is harder to get into study groups due to the classes being fully online for me. SLAC is one of the only tutoring services offered but it does need to expand to higher level classes, especially during this times where students are really struggling. SLAC has helped me a lot in the past, so I would really encourage hiring tutors on economics because it is a hard topic and none of the tutors listed were uncomfortable

tutoring in my homework. I would love for them to specify in which classes they can help, so I am not there trying to wait for a tutor that at the end said that they did not feel comfortable tutoring me about the subject.

---

Always have a math tutor / more math tutors please.

---

Have more tutors / hours for the online hours.

---

I needed help in Calculus for Life Sciences and I emailed the tutor that was given to me and was told he had no idea how to do it.

---

I enjoy working with Pressley. She is amazing every paper I have had her look over I have gotten an A on.

---

Never had enough people in the library to help. They don't help that much they don't direct you in the correct way.

---

I really enjoy SLAC and the tutors. I think they are very helpful, and I will continue going to SLAC in the following semesters. I appreciate you all so much I could not have passed chemistry without the help I have received from the SLAC!

---

It's pretty good.

---

The tutor was very helpful and was very kind in the process.

---

Give Tristan from physics a raise!!

---

The tutors are always very nice and helpful.

---

Great help.

---

This is my first time!

---

More math tutors.

---

The math tutoring provides lots of help.

---

Writing tutor Samantha is really helpful.

---

Great tutors!
