Welcome To University Meal Plan Management

Through this portal you will be able to manage your University Meal Plan and make any necessary changes to the plan. Here are a few terms that will be helpful in selecting your meal plan.

Total Semester Cost is the total cost of the Meal Plan including the meals, dining dollars and tax. It will show up on your student bill along with your tuition and fees.

Meal Swipes are the building blocks for the meal plans. A student will swipe their Bobcat Card when entering Commons or Harris then they can enjoy the all-you-care-to eat traditional dining hall.

Dining Dollars are the dollars included with a meal plan and works like having cash on your card. These can only be used at dining locations on campus. Dining Dollars **DO NOT** work at off campus locations.

Guest Passes allow meal plan holders to bring a guest with them to one of the "all-you-care-to-eat" dining halls or food courts as a Meal equivalency. The Meal Plan Holder must accompany the guest each time they visit.

Rollovers are remaining meal or dining dollars (Maroon only) you have on a University dining plan at the end of fall Semester. If you have a Bronze, Silver or Gold Plan any remaining meals will roll over to the spring semester as long as you purchase a plan for the spring. If you have a Maroon plan any remaining dining dollars will roll over to the spring semester as long as you purchase a University meal plan for the spring.

Meal Equivalency give the student flexibility to pay for meals at any of the food court locations and at the Paws N Go Markets by using a Meal Swipe with an equivalency value of \$6.00. For the meal equivalency the purchase is limited to \$6.00. Amounts in excess of \$6.00 can be paid using Dining Dollars, cash, credit/debit or Bobcat Bucks.

Loyalty Program is under development and at this time the student will have to contact the dining halls for more information.

I understand that the meal plan selected is only valid for one semester and the associated cost is also only for one semester.

The housing contract is for a full academic year so another meal plan will be required for both semesters (Fall and Spring) in order to comply with the housing contract.

I understand that the rollover policy only allows the rollover of unused meals (Bronze, Silver, Gold) or Dining Dollars (Maroon) from the Fall to the Spring semester. This requires the purchase of at least the Bronze Choice 1 meal plan (commuter plans are not eligible plans) for the Spring semester in order to receive the rollover meals or dining dollars. All Spring meal plans must be exhausted before rollover funds are available. Anything remaining at the end of the Spring semester will be lost as there are no rollovers beyond the Spring semester.

I understand that any rolled over meals (Bronze, Silver, Gold) or dining dollars (Maroon) will have the same benefits/perks as the selected Spring meal plan. This means if there were meals rolled over from a Gold meal plan and the selected Spring meal plan is a Bronze plan, the rollover meals will have the same equivalency limits, loyalty program inclusion, and food delivery inclusion as the Bronze plan. In this case it means that the Spring rollover meals will have an equivalency limit of 1 time per week, no loyalty program, and no free delivery.

I understand that meal plan charges are on a pro rata basis beginning the first day meal plans are available for use, which is prior to the first day of classes. Any changes made after the start of the semester meal plans will receive a pro rata refund/charge according to the daily pro rata rate for the plan, even if the student has not used any portion of the meal plan.

I understand that the final day to make changes between plans is midnight of the 12th class day during a long semester. Changing from one plan to another after this date will be through special approval by the Director of Auxiliary Services and will be done on an individual basis.
