

Hiring Freeze Protocol for Faculty and Staff Positions
Steps for Approval to Post, Reclassify, Hire, and Take Personnel Actions
Division of Academic Affairs – Texas State University (2020)

The extraordinary challenges created by COVID-19 demand unprecedented fiscal discipline. To that end, the university implemented financial constraints in March 2020, including required presidential approval on many personnel actions. Account managers and supervisors are responsible for assessing the budgetary and operational impact of all personnel requests made using the following process. This assessment includes both short-term and long-term effects on essential operations and budget commitments.

Step 1. Request approval to post position or take other personnel action via email to Dr. Thorne (dm29@txstate.edu) and copy to Cindy Waggoner (cw12@txstate.edu). Position request should include short rationale, position title, position number, funding source and available budget, and proposed posting salary range. Reclassifications should include current and proposed position title as well as proposed salary/pay increase amount and funding source, if salary adjustment requested. For other personnel actions, please contact Cindy Waggoner or Tammy Sharp for guidance.

Step 2. After approval by Dr. Thorne, Nick Schellman creates and completes the Position/Personnel Funding Approval form and emails the form to the department for any additional information and signature(s).

Step 3. Dean/Director/AVP signs Position/Personnel Funding Approval form and returns to Nick Schellman via email.

Step 4. Nick Schellman provides the Position/Personnel Funding Approval form to Tammy Sharp to prepare a memo for the provost's approval of faculty and staff positions due to the hiring freeze. *Effective November 17, 2020 presidential approval will no longer be required for personnel actions.*

Step 5. After approved by the provost, Nick Schellman uploads the executed Position/Personnel Funding Approval form in SharePoint and notifies the department via email.

Step 6. For actions taken in PeopleAdmin, the department may finalize and submit the position request. A copy of Dr. Thorne's approval email and the executed Position/Personnel Funding Approval form are uploaded by the department in PeopleAdmin as attachments to the requisition.

Step 7. For actions taken via PCR, a copy of the executed Position/Personnel Funding Approval form is attached to the PCR by the department.
