SUBJECT: Updates on Spring 2022 Move-In

Dear Neighbors,

With the shift to online/remote delivery of classes through January 30th, the Department of Housing and Residential Life wants to outline what on-campus residents can expect when returning to their residential community.

Residents may move in on the following dates/times: January 16-17 and January 29-30 between 10 a.m. – 8 p.m. OR weekdays between January 18-28 between 10 a.m. – 5 p.m.

The following steps must be completed to move-in. Please plan accordingly.

1. **Get tested 3 days or less prior to move-in.** Test results must be dated 72 hours (3 days) or less prior to your arrival. Negative PCR, antigen, and at-home antigen test results are all accepted. Do not delay scheduling your test. Appointments are quickly filled and test results can take several days. To find free COVID-19 testing sites near you, check Curative Testing or TX COVID-19 Testing Sites. If you live close to San Marcos, testing is available by appointment on campus Monday-Friday.

2. **Upload your negative test results to the Housing Portal.** Students must submit their negative COVID-19 test results online to the Housing Portal before returning to their hall or apartment. If you meet the criteria, you will be sent an approval email. Students opting for an at-home antigen test must provide a photo showing the test result with their name and date of the test on the antigen test kit.

3. **Bring your approval email to the front desk of your hall when you move in.** You must have an approval email to gain access into your hall or apartment.

We have updated our website with some frequently asked questions about the spring move-in process and will continue to do so as information develops. As mentioned in our previous email, we are working on step-by-step instructions regarding how to upload your test results into the Housing Portal and will have them available to you by next week.

If you have further questions, you may reach our office at 512.245.4663 or email us at reslife@txstate.edu.

Sincerely,

Bill Mattera
Executive Director
Housing and Residential Life
