APPENDIX ONE: AGREEMENT (separate attachment)

Section 1 – General Information

1.1 OBJECTIVE: The Texas State University System (“**TSUS**” or “**The System**”) is soliciting proposals in response to this Request for Proposal No. 758-22-00072 (this “**RFP**”), from qualified vendors to provide post-disaster administrative support services (the “**Services**” or “**Project**”). The System expects to enter into a contract with the selected firm or firms to provide the Services as further described in **Section 5** of this RFP.

This solicitation sets forth, at a minimum, the specifications, terms, conditions, and requirements to be considered for this solicitation. The System will select the proposal(s) that offers the “best value” based on the published selection criteria and on its ranking evaluation of submitted proposals. Firms that respond to this RFP will be referred to as “**Proposers.**”

1.2 DESCRIPTION OF THE SYSTEM: The Texas State University System, founded in 1911, is the first higher education system that was established in Texas. Beginning as an administrative means to consolidate the support and management of state teacher colleges, The System has evolved into a network of higher education institutions stretching from the Texas–Louisiana border to the Big Bend region of West Texas. Throughout The System, faculty and staff are preparing students to work in and contribute to our global society.

The System includes the system administration office (**TSUS Administration**) and seven (7) component institutions (**Component Institutions**) that offer a broad range of academic and career opportunities:

- TSUS Administration
- Lamar University
- Sam Houston State University
- Sul Ross State University
- Texas State University
- Lamar Institute of Technology
- Lamar State College Orange
- Lamar State College Port Arthur

The Texas State University System is governed by a nine-member Board of Regents appointed by the governor. In addition, a nonvoting student regent is appointed annually to the board. TSUS Administration, which is led by a board-appointed chancellor, is based in Austin, where it provides support to the Component Institutions and state government.

1.3 BACKGROUND & SPECIAL CIRCUMSTANCES: The System is looking for a reputable and capable disaster management partner to provide post-disaster administrative assistance to the Component Institutions. The System requires a vendor with in-depth knowledge and expertise in the operations and procedures employed by the State of Texas, FEMA, and other Federal Agencies in their past and current applications of reimbursement, procedural processes. Further, the ideal vendor should have extensive experience in assisting with FEMA reimbursement of costs, tracking volunteer time, advice concerning housing needs, grants for rebuilding infrastructure, etc.

With Component Institution campuses located across Texas, many of which are impacted by events occurring in the Gulf of Mexico, The System expects the Component Institutions will require different levels of assistance.

1.4 CONTRACT TERM: The base contract term shall be for three (3) years, beginning on the effective date of the Agreement. The System may renew the contract for up to two (2) additional one (1) year renewal terms. Notice of renewal will be issued in writing approximately thirty (30) days prior to the end of the current performance period. The total duration of the contract, including the optional renewals, shall not exceed five (5) consecutive years.

1.5 SCHEDULE OF EVENTS:

- A. Issue RFP on or about: **September 13, 2021**
- B. Last Day for questions: **September 23, 2021**
- C. Proposals due: **October 13, 2021, at 2:30 p.m. (Central Time)**
- D. Anticipated Contract Start Date: **Week of December 13, 2021**

1.6 CLASS AND ITEM (NIGP) CODES: The related Class and Item code(s) for goods / services requested are: 961-96, 958-61, 951-00, 917-77

1.7 GROUP PURCHASING AUTHORITY: Texas law authorizes institutions of higher education (defined by Section 61.003, Education Code) to use the group purchasing procurement method (ref. Section 51.9335, Education Code). Additional Texas institutions of higher education may therefore elect to enter into a contract with the successful Proposer under this RFP.

Texas institutions of higher education (“IHEs”) routinely evaluate whether a contract resulting from a procurement conducted by another IHE might be suitable for use, and if so, this RFP could give rise to additional purchase volumes. As a result, in submitting its proposal, Proposer should consider proposing a pricing model and other commercial terms that consider the higher volumes and other expanded opportunities that could result from the eventual inclusion of other IHEs in the purchase contemplated by this RFP. Any purchases made by other IHEs based on this RFP will be the sole responsibility of those IHEs.

Contractor will restrict disclosure of FERPA Records solely to those employees, subcontractors, or agents of Contractor that have a need to access the FERPA Records in order for Contractor to perform its obligations under this Agreement. If Contractor discloses any FERPA Records to a subcontractor or agent, Contractor will require the subcontractor or agent to comply with restrictions and obligations that align with the restrictions and obligations imposed on Contractor by this Agreement, including requiring each subcontractor or agent to agree to the same restrictions and obligations in writing.

- 19.24 **No Third-Party Beneficiaries.** Nothing contained in the Agreement, either expressed or implied, is intended to confer on any person other than the Parties, or their respective permitted successors, assigns, transferees or delegates, any interests, rights, remedies, obligations or liabilities pursuant to, or by reason of, this Agreement.

I. **Questions and Answers:**

The questions below were submitted to the Point-of-Contact in writing prior to the question deadline (ref. Section 2.3) of the RFP and have been answered by TSUS.

1. Regarding Section 2.5.1, it is unclear how pricing will be evaluated based on the Best Value Criteria, please clarify.

Answer: *Hourly rates provided in response to Section 6.1 of the RFP will be used to evaluate pricing.*

2. Regarding Section 6.1, please confirm that the Roles and Hourly Rates provided in this table are the only pricing requirements at this time, and constitute a compliant submission.

Answer: *The hourly rates requested in Section 6.1 are considered all inclusive (outside of potential travel expenses) and are the only pricing components of the RFP.*

3. Will the TSUS confirm the intention of this solicitation is to issue multiple awards?

Answer: *At this time The System cannot indicate how many awards, if any, will be made. If, upon reviewing responses to this RFP, it is determined to be in the best interest of The System to make multiple awards then The System reserves the right to do so.*

4. Has the TSUS been supported by any other vendors for services related to FEMA and/or other disaster recovery programs? If so, what vendor(s)?

Answer: *Services are currently provided by Deloitte & Touche LLP.*

5. Does the TSUS leverage a disaster cost recovery system and/or do any member institutions leverage a system?

Answer: *No, not to our knowledge.*

6. Reference 5.2: What other grant programs, in particular from the DOE, does the system intend for the contractor to support claiming reimbursement through?

Answer: *It depends upon what grand funds become available during an emergent situation. For example, this past year COVID directly brought about CARES and HEERF funding not previously available.*

7. Reference 5.4: What is the intended work location for this project? For other campus locations, what is the expectation of onsite presence?

Answer: *It is expected that most of the Services can be provided remotely with communication via email, phone, video conferencing, etc. Some on-site visits will be necessary and will require travel to the Requesting Institution's campus.*

8. Reference 5.6: What is the scope of the internal policies related to disasters that the system envisions for this project? Will these be limited to financial reimbursement or include policies such as preparedness, response, and mitigation?

Answer: *Current scope includes TSUS Administration's Revenue Loss policy. Other specific policies are unknown at this time but will be discussed with successful firm.*

9. Reference 8.2.3: This item, "...a yearly performance review... including suggested improvements and future roadmaps," is noted in the "Company Profile". Is this a deliverable for the contract? Will this be on a task order for each campus or for the system as a whole?

Answer: *Not necessarily. For the purposes of this RFP, The System is determining the willingness of firms to engage in this type of activity / level of information sharing. Any such review, if implemented, would likely be held with TSUS Administration.*

10. Does Texas State University System have an incumbent vendor that provided the administrative services to the system and component institutions previously?

Answer: *Services are currently provided by Deloitte & Touche LLP.*

11. Is the Texas State University System or any of the component institutions currently conducting disaster recovery activities under a state or federal disaster proclamation?

Answer: *Yes. Lamar University is currently engaged in activities related to Hurricane Ike, Hurricane Harvey, Hurricane Laura, 2021 Winter Ice Storm and considering COVID at this time.*

12. Is the Texas State University System or any of the component institutions currently funded for existing disaster recovery activities?

Answer: *Lamar University budgets for contingency disaster scenarios.*

13. Has the Texas State University System or any of the component institutions been allocated any federal COVID-19 recovery funds? If so, is the System seeking administrative services to support those grant programs?

Answer: *Yes, these funds have been allocated. Yes, support will be requested on an as-needed basis as questions arise concerning grant rules and regulations.*

14. Does the Texas State University System have a grants management platform?

Answer: *No. However, Lamar University has both a pre- and post- grant department.*

15. Is the Texas State University System seeking vendor services centralized at the System level or will each component institution require additional stand-alone services?

Answer: *The master agreement will be executed by TSUS Administration. Per Section 5.8.1 of the RFP, when a Component Institution has a specific need for Services a written quote from the Contractor will be requested by the institution and a purchase order will be issued.*

16. What internal entity or organization is currently responsible for disaster assistance at the System?

Answer: *TSUS Administration's Office of Risk Management.*
