Honorary Doctoral Degrees

ROY F. MITTE and **JOANN COLE MITTE**

Saturday, December 17, 2005
9:30 a.m. ceremony

Texas State University-San Marcos will confer the Doctor of Humane Letters, *honoris causa*, on Roy F. Mitte, President and Chairman of the Board of the Mitte Foundation Board of Directors, and Joann Cole Mitte, Executive Vice President of the Mitte Foundation Board of Directors.

Roy F. Mitte grew up in Brownsville, Texas, and attended Texas State on a partial basketball scholarship. While in college, Mr. Mitte met Joann Cole and the two were married during their senior year. Mr. Mitte graduated in 1953, joined the Army and served in Korea. Upon returning home, he began his career as a teacher and basketball coach at Lampasas High School. He completed his master's degree in education at Texas State in 1958. In 1959, he left a successful coaching career and began selling insurance for Aetna Life and Casualty Co. He later joined Lincoln Life Insurance Company. During a ten-year span, Mr. Mitte built his agency into one of the most successful in the history of Lincoln Life. In 1972, he started his own insurance company, FIC Insurance Group, which achieved an extraordinary record of success over the next 30 years. In 1982, Mr. Mitte was recognized as a Distinguished Alumnus of Texas State.

Joann Cole Mitte is a native of Bertram, Texas. She majored in elementary education at Texas State, graduating in 1953. Mrs. Mitte taught at the San Marcos Baptist Academy and in the public schools of El Paso, Killeen, and Lampasas in the early years of the Mittes' marriage, as well as while her husband was serving in the armed forces in Korea. Mrs. Mitte has an outstanding record of service to her community and remains a driving force behind the Mitte Foundation's community and cultural interests. She was honored with Texas State's Distinguished Alumnus Award in 1998.

In 1997, during the university's first capital campaign, the Mittes established the Roy F. and Joann Cole Mitte Foundation and made the largest total contributions to that campaign, establishing a scholarship fund within the Foundation to provide up to 125 scholarships per year, and providing an additional fund to support five endowed chairs at the university. Since that time, the Mitte Foundation has also provided substantial support for a \$1 million endowment that created the Grosvenor Scholars Program that permits a Ph.D. student in geographic education to spend six to nine months in Washington, D.C., at the headquarters of the National Geographic Society doing dissertation-level research. The Foundation has also provided \$500,000 to endow the Mitte Honors Program at Texas State and created the university's premiere scholarship program, the Mitte Laureate Scholarship Program.

Roy F. and Joann Cole Mitte's commitment to community service has extended beyond their personal philanthropy into their expectations for the students who receive the scholarships that bear their names. Recognizing that community leadership shares an equal role in the development of a well rounded scholar, one of the criteria for selection as a Mitte scholar is the student's record of school and community leadership and one of the expectations of a Mitte scholar during the college experience is a continuation of that community involvement and leadership activity.

Commencement Address

JAMES WEITZUL

Saturday, December 17, 2005

9:30 a.m.

Dr. James Weitzul is a psychologist with a broad range of experience including teaching, business, and consulting. Dr. Weitzul received a B.S. in Mathematics from the University of Southern California, an M.B.A. from the University of California at Los Angeles, and an M.S. and Ph.D. in Industrial Psychology from Cornell University.

Dr. Weitzul has worked with the RAND Corporation on projects for NASA and the U. S. Department of Defense, primarily defining, implementing, and measuring the results of U.S. policy in the Southeast Asia during the Vietnam Conflict. Other work experience includes time spent with Rohrer, Hibler and Replogle, where he served as a behavioral science consultant to numerous Fortune 500 companies. His current position is President of Banks & Weitzul, a Princeton-based consulting firm. He also serves as Treasurer of the Mitte Foundation's Board of Directors.

Dr. Weitzul's areas of expertise include the design, construction, and validation of psychological tests of intelligence, interests, and temperament; the computerization of attitudinal, compensation, and benefit-related employee surveys; acting as an interpersonal consultant on large-scale organizational development projects; and the design and delivery of numerous training programs. He is the author of three books and has written a number of articles in professional and trade publications.

HONORARY DEGREES

On Saturday, December 17, 2005, Mr. Roy F. and Mrs. Joann Cole Mitte will receive the fourth and fifth honorary doctorates conferred by Texas State University-San Marcos, both receiving the Doctor of Humane Letters, *honoris causa*. The Mittes are both recipients of the Texas State University Distinguished Alumnus Award. They are founders of the Roy F. and Joann Cole Mitte Foundation, and are recognized internationally for their philanthropy. Their generous contributions to Texas State have established the university's most prestigious scholarship program, funded five distinguished chairs, supported the Grosvenor Scholars Program in geographic education and endowed the university's Mitte Honors Program.

Texas State awarded its first honorary doctorate in 1962, when we conferred upon Lyndon Baines Johnson the degree of Doctor of Laws, *honoris causa*. At the time, Mr. Johnson was vice president of the United States, and had already served as a United States representative and a United States senator. He would go on, of course, to serve as president of the United States, the only president to have graduated from a Texas university. Mr. Johnson graduated from Texas State in 1930.

The second recipient of an honorary doctorate from Texas State was Lady Bird Johnson. She received an honorary Doctor of Humane Letters, *honoris causa*, in 1983. Mrs. Johnson was honored as a beloved former first lady of the United States, a dedicated friend of Texas State and as a remarkable woman who devoted her time and energy to projects beneficial to Texas and the nation. Her personal warmth and strength brought her special recognition among former first ladies of the United States.

Texas State's third honorary doctorate was conferred upon Gilbert M. Grosvenor, who received the Doctor of Geographic Education, *honoris causa*. As a former editor of *National Geographic* magazine and longtime president of the National Geographic Society, Grosvenor's name is synonymous with geographic education. He also played a pivotal role in helping Texas State secure its Ph.D. program in geographic education, the first such degree at this university. He has also allowed his name to be highlighted in the university's Gilbert M. Grosvenor Center for Geographic Education and Grosvenor Distinguished Lecture Series in Geographic Education.

COMMENCEMENT REGALIA

The gowns, caps, and hoods worn at university functions date back to the early days of the oldest universities in the Middle Ages. Monks and students wore them to keep warm in the damp and drafty twelfth century halls of learning. This traditional academic dress has been gradually revised to the modern form you see today.

All gowns have a semi-stiff yoke, long pleated front, and intricate shirring across the shoulders and back. The bachelor's gown is worn closed, reaches between 8 and 10 inches from the floor, and has long sleeves from which the arms exit at the wrist. The master's gown may be worn open or closed and has long pointed sleeves closed at the end, the forearm coming through a slit near the elbow, with the flowing sleeve extending down the thigh. The doctor's gown may also be worn either open or closed but is distinguished by broad velvet panels down the front and by three velvet bars on the full bell-shaped sleeves. This velvet trimming may be either black or the color distinctive of the field of learning.

The black cap with maroon and gold tassel is worn by holders of a bachelor's and master's degree; the black velvet tam with gold tassel is worn by holders of a doctoral degree.

The hood (usually not worn by holders of the bachelor's degree) is a black shell, silk-lined in the color or colors of the institution conferring the degree. The colors of Texas State University-San Marcos are shown by a maroon lining crossed with a gold chevron. The velvet border of the hood is the color signifying the field of learning in which the degree was earned and not in the department in which the major was done. Thus, a degree conferred as master of education with a major in physical education requires the light blue of education rather than the sage of physical education. Similarly, the "doctor of philosophy" degree requires the royal of philosophy, not the color of the department in which the major of study was done.

Colors signifying various fields of learning, which you may see today, include:

Agriculture.....	Maize	Medicine	Green
Architecture	Blue Lilac	Music.....	Pink
Arts, Letters, Humanities.....	White	Nursing	Apricot
Commerce, Accountancy, Business	Drab	Oratory (Speech)	Silver Grey
Dentistry	Lilac	Pharmacy.....	Olive
Economics	Copper	Philosophy.....	Royal
Education	Light Blue	Physical Education.....	Sage
Engineering.....	Orange	Public Administration, Foreign Service.....	Peacock
Fine Arts.....	Brown	Public Health	Salmon Pink
Forestry.....	Russet	Science	Gold
Journalism	Crimson	Social Work.....	Citron
Law	Purple	Theology.....	Red
Library Science	Lemon	Veterinary Science.....	Gray

The universities represented by colors lining the hoods worn by our faculty are numerous; two examples are Baylor's dark green and gold, and Texas A&M's maroon and white. Please feel free to ask individual faculty members which institutions their colors represent.

THE CEREMONIAL MACE

The use of a mace during university graduation ceremonies combines symbolic communication with the principle of vested authority at the most traditional and sacred of academic celebrations. The mace emphasizes the principle for which institutions of higher learning stand. It is a visible symbol of both the specific history of the institution as well as the more universal commitment of high quality in education, and the search for truth and beauty through the interaction of many academic disciplines. The mace bearer leads the faculty procession during a formal graduation ceremony. The mace, as a symbol of authority, adds meaning and dignity to the commencement ritual. Throughout the ceremony it reminds participants and spectators that education is one of the single most important aspects of freedom and democratic government.

THE TEXAS STATE UNIVERSITY-SAN MARCOS MACE

The top of a mace is usually adorned with a symbol that is particularly significant to its university. It is appropriate that the Indian Blanket should be the symbol on top of the Texas State mace. The Indian Blanket, a native Texas wildflower technically known as the Gaillardia pulchella, holds a special significance for our university, since the school colors were selected from it. The mace flower was hand carved from four types of wood: osage orange, mesquite, pecan, and dark walnut, which are all native to the state of Texas. The top of the mace is solid pecan with inlaid bronze investment castings. Divided into eight sections, the sphere represents all of the colleges at Texas State. Each section features silicon bronze investment cast carvings that exemplify the academic interests of the departments making up each college. The spherical shape of the mace head is intended to convey a message about the international nature of the university and the interactive nature of academic interests that exist among the colleges. Since the strength of a sphere is well documented in the study of solid geometry, strength should be clearly associated with the interactive nature of each college represented. Comprising the main body of the mace, the stem is turned and hand carved from native Texas pecan. The wide area of contact between the stem and the sphere emphasizes the support for higher education provided by the state of Texas. Hand carved shapes of the state of Texas, in the upper portion of the stem, reinforce the concept of support. The stand features a piece of Texas pink granite that was part of the cornerstone material from our library. The wood support on the base is native Texas mesquite that combines the beauty of both sap and heartwood. The mace was designed and built by the Department of Engineering and Technology in 1990.
