What Are Holds?

Holds are placed on your record from offices and departments across campus. Holds may prevent you from registering, ordering a transcript, and other important actions. Common holds include probation holds, advising holds, and parking holds.

What is your Registration Time?

While Spring 2019 registration begins on October 22, your registration access time can be anywhere from the 22nd through the 26th. Your access time can depend on classification, services, and grades.

Why should you check the CRN when registering?

Clicking on the Course Reference Number will show prerequisites and other important course information. If you get a registration error, information in the CRN will usually explain the reason.

Want to know how to check for holds, your registration time, and the CRN?

Go to the following website for how-to videos and written instructions:

http://www.ucollege.txstate.edu/advising/resources/RegistrationAssistance.html
What is SAP?
In order to receive financial aid, a student must maintain Satisfactory Academic Progress (SAP). Progress is determined by having a minimum 2.00 TXST GPA, completing 67% of attempted coursework, and attempting no more than 180 hours.

What are degree applicable courses?
Students receiving financial aid must have degree applicable courses - courses being applied to their intended major. Students are encouraged to have at least 12 hours of degree applicable courses to receive their full aid benefit.

For more information contact the Financial Aid and Scholarships Office
