The University Libraries at Texas State University are seeking a Digital Design Specialist for our Technology Engagement team. Reporting to Systems Programmer Analyst II this position is responsible for producing a range of high-quality digital assets on a regular schedule. Primary responsibilities for this position include creating 2D and 3D assets for X-Reality technologies; engaging with the campus community through workshops and other programming efforts; assisting the campus community with graphic and 3D design software in our new DesignSpace and contributing content to our micro-credentialing program. The purpose of the micro-credentialing program is to enable its participants to create a range of digital assets that can be used in different technology spaces within the Alkek Library. Content for the program will include a series of self-paced modules and regular workshops given by staff, faculty, and industry professionals.

**RESPONSIBILITIES:** Design digital assets for the Immersion Studio and the micro-credentialing program. Effectively manage projects. Give workshops to supplement online content for the micro-credentialing program. Collaborate with the Digital Literacy Program Coordinator to identify x-reality skills, workflows and other activities that can be included in the micro-credentialing program. Engage in consultations with students, faculty and staff. Assist as needed with selection and training of student workers.

**QUALIFICATIONS:**

**Required:** Expertise in 3D modeling software, graphic design software, and other software used for digital design; familiarity with integrated development environments and x-reality equipment; knowledge of animation and special effects; ability to create professional deliverables on a regular basis; interpersonal skills to establish rapport with a variety of clients, perform outreach, and create relationships with technology leaders; ability to complete projects accurately and on time by developing high-level and detailed project schedules, tracking progress against milestones, communicating project status on a regular basis, proactively identifying and managing risks, and ensuring that issues are resolved in a timely manner; ability to handle task interruptions in order to assist in critical activities with no negative impact.

**SALARY AND BENEFITS:** Salary commensurate with qualifications and experience. Benefits include monthly contribution to health insurance/benefits package and retirement program. No state or local income tax.

**BACKGROUND CHECK:** Employment with Texas State University is contingent upon the outcome of a criminal history background check. This includes transfers and promotions from within.
