THE APPROACH

THE CURRENT SOLUTION
an excel spreadsheet is being used to manage instructor-course assignments

AS WE ALL KNOW...
excel can be a pain in the neck!
- it’s hard to navigate
- it’s hard to manage
- it only exists on the hard drive of the user’s computer

THE NEW & IMPROVED SOLUTION
develop a web-based application to manage instructor-course assignments!

THE BENEFITS
advantages over the old solution
- allows for easy navigation & management
- can be accessed via the web
- allows Program Coordinators to work on assignments simultaneously
- provides instructor-course assignment recommendations

TO DO
• work with TXST University for a log in system

DOING
• add and edit instructors & courses
• making instructor course assignments
• implement assignment recommendation

DONE
• system framework
• frontend user interface

THE DREAM TEAM

A BIG THANK YOU!
Dr. Compeau (Sponsor & Faculty Advisor)
Mr. Hinkle (Instructor)
Dr. McClellan (Faculty Advisor)
thank you so much for your guidance throughout the semester. we really appreciate it!

Phillip Tran  David Johnson  Kiana McDaniel
