Vision Statement

The Texas State Student Health Center will be recognized for excellence in providing health care and health education services.

Mission and Goals

The mission of the Student Health Center is to provide high-quality health care and health education that meets the needs of Texas State students.

The Student Health Center will:

- Provide access to affordable health care services,
- Provide effective health education to promote healthy lifestyles,
- Support the personal and professional development of its staff,
- Strive for continuous improvement and excellence,
- Support the academic mission of the University.
