

Bachelor of Science in Respiratory Care (BSRC) Application Instructions

1. Complete the BSRC Application and respond to all questions. Do not leave any blanks and mark “N/A” if not applicable.
2. An overall GPA of 2.50 is required and completion of all RC Pre-requisite courses to be considered for admission. If you are planning to complete pre-req requirements by August, you may apply to the program by May 1 with clarification/documentation of intent for pre-req completion. A transcript from all institutions attended must be returned with the applicant packet and all applicants are expected to apply and be accepted to Texas State prior to admission to the BSRC Program.
3. Three reference forms must be included in the application packet. Individuals who complete the reference form should return them to you in a sealed envelope with their signature across the envelope seal. References can be previous professors, employers, or any non-relative acquaintance that can recommend you as a potential healthcare professional.
4. All applications must be submitted by May 1. The RC Admission Committee will begin the review process immediately. The 40 most highly-qualified students will be offered program acceptance with a wait-list of potential candidates should acceptance offers be declined. Incomplete applications and packets will be considered “inactive.” All applicants will be notified of their status by June 1.
5. Enclose a written statement stating 1) Why you wish to pursue respiratory care as a career and 2) Why did you chose the BSRC Program at Texas State University to achieve this career goal?
6. Please read the ADA Standards Statement, sign and return with your packet.
7. Submit your completed packet by mail to:
Department of Respiratory Care
Texas State University
Willow Hall
200 Bobcat Way
Round Rock, TX 78665

Applications may also be submitted directly in the Department of Respiratory Care in Willow Hall room 214.

8. Applicants accepted to the BSRC Program will be required to complete a criminal background check with drug screening, provide proof of immunization & general health, and are strongly encouraged to have personal health insurance coverage.
