SAP Concur Travel: Booking Airfare and Lodging

Use this guide to help you make airfare and lodging reservations via Concur Travel.

Accounts Payable & Travel

Revised July 2021
Overview

The SAP Concur Travel online booking tool delivers the broadest selection of travel content through an intuitive and easy-to-use online travel booking experience. Both the SAP Concur Travel and SAP Concur Expense modules allow for travel to be all inclusive for employees, students, and non-employees of Texas State University. This also allows for an all-encompassing system for travel preapproval, booking travel reservations and the reimbursement process once the trip is complete. The following instructions will guide the user through the reservation process of airfare, lodging and in some cases car rental (if booking car rental only, refer to Tx State Car Rentals).

Corporate Travel Planners (CTP) is the University’s preferred vendor for airfare and lodging purchases. When booking your reservations, the SAP Concur Travel system will submit all reservation information to CTP for final ticketing, reservation, and invoicing. CTP will then transfer booking information to the SAP Concur Expense system; this allows for ease of the reimbursement process once your trip is complete.

If you need on-line navigational assistance at any time during the booking process, you may call Corporate Travel Planners (CTP) toll free at 877-727-5188. Operational times for this free service is 8:00 AM – 5:00 PM M-F Central Time. **NOTE:** If you need help after hours, you may still call 800-823-6582 but you will incur an afterhours booking fee.

Multi Segment Travel

Multi Segment Travel encompasses trip reservations with multiple stops along one route. This is mainly seen for a foreign destination. Not all price listings are the same in the booking tool compared to what an agent can book. Consider using an agent to book these types of trips to ensure you are getting the best price possible, and itineraries are correct.

BOOKING FOR A GUEST

1. Once in SAP Concur Travel, the homepage will appear.

2. To book on behalf of another traveler: employee, student, non-employee, select Profile then Profile Settings from the top header on the right side of the SAP Concur Home Page.

   NOTE: You must be listed as a Travel Assistant/Arranger in order to book travel for another. Refer to the SAP Concur Travel: Updating your Profile instructions for more information.

Reminders:

1. If you have lodging expenses you will need to verify the lodging expenses on the folio before you leave the hotel. If in the State of Texas, be sure that the State Occupancy Tax has not been charged.

2. Once you return from the trip, you will complete the Expense Report with the company paid charges. An itemized receipt for the transaction will need to be attached. If lodging was in the State of Texas, remember that it is the traveler’s responsibility to ensure that the State Occupancy Tax was not reflected on folio. If so, you will need to contact the hotel and request a credit to the credit card billed for this tax (you may need to provide the exemption form again per the hotel’s request).

3. Claim these charges as University Paid expense on your expense report.
