PURPOSE
This policy and procedure statement sets forth guidelines for conducting the annual faculty and student research forum (RF) in the College of Health Professions (CHP).

POLICY
1. The foundation of these guidelines is primarily based on the (1) Texas State University Mission Statement, (2) CHP Vision Statement, (3) CHP Mission Statement, and (4) CHP Faculty Committees’ document charge for the RF.
   a. Vision Statement: The Texas State College of Health Professions will be a nationally recognized premier center for educating professionals in a broad array of healthcare fields, increasing the knowledge, research, and community coalitions necessary to enhance and restore the health and well-being of the whole person and of society.
   b. Mission Statement: The College of Health Professions educates and prepares healthcare professionals in a student-centered learning environment. The College excels in teaching, scholarship, and service while responding to health care needs of the global community. The College unites faculty, students, the health care communities, and consumers in coalitions that support the academic, scholarly, and service aspects of health care.
   c. The committee’s charge shall be to plan and make arrangements for the CHP annual RF.

PROCEDURE
1. Overview:
   The chair of the RF Committee will schedule a planning meeting in the fall semester (usually, November). The committee is composed of faculty members in the CHP and shall be appointed by the dean (annually) upon recommendation of the respective department chairs. The committee will elect a vice-chair, or a member may volunteer, for that role. The vice chair will also be the chair-elect, if the current chair is stepping down after the present year. Additionally, if the chair is stepping down after the present year, he/she will remain as a past-chair for at least the next year to serve in an advisory role until the cycle turns over. In the event that the vice-chair cannot become the next chair, the dean will appoint a new chair. This committee reports to the associate dean for research.

2. Scheduling and Preparation (fall semester)
   a. The following agenda should be addressed at the initial planning meeting in the fall semester.
- Chair will welcome new members and present a basic overview of the RF (including example poster/oral abstracts, schedules, and other documents from past RF’s).

- Selection of a vice-chair, if needed.

- Set the date for the RF in the spring (historically, the RF has been in late March or mid-to late April to accommodate the clinical/internship schedules of various units). The committee should attempt to set the RF date with consideration for the CHP Annual Awards Ceremony date that is also held in the spring (typically, April).

- Selection of an appropriate location for the RF. The committee should consider audiovisual needs and proximity for students and faculty.

- The Chair will confirm the selection of a date and venue with the dean’s office. Additionally, when oral presentations are included, the vice-chair will invite the Dean of the CHP (or an appropriate substitute) to open the RF with an introduction and welcome.

- Upon confirmation of the date and venue with the dean’s office, the chair will publish the information about the CHP-RF by a college-wide email (usually sent by the dean’s office). The email will include a “Call of Abstracts” that will include a committee-agreed-upon abstract deadline (usually late March). The announcement should also be posted in visible areas and placed in department chair mailboxes. The email should be sent before the end of the fall semester to allow faculty the possibility of inclusion in their spring syllabi.

- Set a RF meeting date for early spring semester.

3. Scheduling and Preparation (spring semester)

   a. The following agenda should be addressed at the spring RF committee meeting.
      - The chair will send out a reminder email during the first week of the semester.
      - The chair will explain the process for evaluation of poster/oral abstracts.

      - The chair will explain the online abstract submission process to the committee. The chair will create a public CHP Research Forum Learning Management System (LMS) project site available and viewable to all participants and committee members. Abstracts will be uploaded by the primary author to the Drop Box of the LMS project site by the posted submission deadline. Instructions for abstract submission will be included in the “Call for Abstracts” document and may be found in the resource folder of the CHP Research Forum LMS project site.
• As abstract submissions are uploaded to the CHP Research Forum LMS site, the RF Chair, or his/her designate, will review the abstracts prior to distribution to the committee members for evaluation. Once the submission deadline has passed, the chair will convert the LMS project site from public to private allowing only committee members to have access.

• The chair is responsible for organization and distribution of the abstracts after the deadline for “Call for Abstracts” to each committee member. Briefly, each committee member will evaluate the submitted abstracts. Committee members will be allowed approximately 1-2 weeks to evaluate the abstracts (early March).

• All abstracts submitted will be considered by the committee. Selection will be based on academic merit and content. Abstracts must be 250 words or less in length. The committee reserves the right to reject any abstract. The committee will notify the abstract’s primary author by email as soon as possible (usually early March) if any changes are recommended or if the abstract is unacceptable (e.g., spelling and grammatical errors, does not meet the word count criteria, or contains incomplete data and/or results). The primary author (or the individual who submitted the abstract) will be notified by email in early March if the abstract is accepted.

• All authors are required to use the College of Health Professions’ (CHP) Poster Template for the design of their poster. The poster template may be found at http://www.health.txstate.edu/Research/CHP-Poster-Template.html. All posters must be presented on standard conference size posters (e.g., 24 x 36, 36 x 48). If the poster is not created using the Texas State CHP template or on a standard conference poster size it will not be judged. However, if the RF is conducted exclusively online through the RF LMS site the authors will submit (electronically) a PDF copy of their poster using the CHP poster template to the RF LMS site by the posted deadline for poster submissions.

• The committee reserves the right to designate the most appropriate venue for each abstract (for instance, an oral platform request may be asked to be presented by poster). If this occurs, the author(s) will be notified promptly to allow for timely changes.

• The chair will determine the “recognized” posters by tallying the total points on the committee evaluations. The posters chosen for recognition will be forwarded to the vice-chair for recognition certificates and letters to be prepared and signed by the CHP Dean.

• The chair/vice-chair will create a schedule for the RF after the deadline for abstracts. The committee will have time to comment on the schedule and make changes. The schedule will be publicized by a confirmatory email to each abstract author/co-author, faculty advisor, and general faculty upon final confirmation by the committee.
- The committee will review any other items for discussion/decision, especially venue arrangements and RF assignments (audio/visual needs, time-keepers, securing space, hallways for poster demonstrations, post-forum recognition certificates, and newspaper/photographs on RF day, etc.).

- Set a RF committee meeting date approximately one week prior to the RF date.

- At the final RF committee meeting before the RF, the Chair will update the committee members of any last minute changes and/or recommendations.

4. RF Day (spring semester)

   a. The RF will follow the schedule as confirmed by the committee.

   - The agenda for the RF typically includes in this order: (1) welcome and introduction by the CHP Dean and RF Chair (only when oral presentations are included), (2) platform oral presentations by student, faculty, or a combination, (3) simultaneous poster presentations (typically posters are manned for an hour in the A.M. and then left on display for the rest of the day), and (4) closing remarks by the RF Chair.

   - If the RF is conducted exclusively through the RF LMS site, an email will be sent out from the Dean’s office one to two days prior to the start of the RF alerting all faculty and students of the week the posters will be available for viewing online by logging onto the RF LMS site. The posters will be arranged on the LMS site according to the following committee designated predetermined categories:
     - Faculty Research
     - Faculty/Student Collaboration
     - Graduate Students
     - Undergraduate Students
     - Educational Literature Review

   - The committee can arrange for university photographs/newspaper coverage of RF.

5. Post-Forum (spring semester)

   a. The following agenda items should be addressed once the RF is complete and before the end of the spring semester.

   - Recognition of each poster presentation, oral platform presentation, and overall participation (co-authors, faculty advisors, etc.) by a letter from the RF Chair and vice-chair (example letters will be maintained electronically by current chair). The “recognized” abstracts will also receive a certificate from the dean.

   - Recognition of each RF committee member by a letter from the RF Chair and vice-chair.
• The chair will submit a final report to the dean and associate dean before the end of the spring semester. The report should include the number of student and faculty abstracts submitted/presented, outstanding abstracts as ranked by the committee, and recommendations of successes/failures of the RF.

• The chair is responsible for maintaining electronic and/or written files with respect to allowing a transfer of leadership and historical past minutes to the incoming chair.

• If there will be a change of chair (by stepping down or by dean appointment), the past chair will initiate a meeting with the incoming Chair Elect (usually the Vice-Chair) on the upcoming RF. If possible, the past chair will remain on the committee in an advisory role for one year post chair responsibilities (at the least, the past chair will be available for consultation by the current chair).

6. Calendar

a. The following calendar is approximate with respect to past CHP RF’s

• October/November (initial RF planning meeting)

• January (RF Call for Abstracts/ Announcement)

• February (Reminder Call for Abstracts / Announcement)

• March (Evaluation of Abstracts, notification of author(s), preparation for RF event)

• Mid-to-late April (RF Day) or if online RF week of viewing

• April/May (Post Forum Recognition)

• May (Final Report to CHP Dean)

• Summer/Early Fall (if necessary, transition to new RF Chair)
MAJOR RESPONSIBILITIES ASSOCIATED WITH THIS CHP/PPS
Major responsibilities for routine assignments associated with this PPS include the following:
1. The chair of the committee shall review this PPS E2Y.
2. The current RF Chair will be available for consultation with respect to any information associated with this PPS.

CERTIFICATION STATEMENT
This CHP/PPS has been approved by the following individuals in his/her official capacity and represents College policy and procedures from the date of this document until superseded.
