SUBJ: ASG Legislation – S.R.F. 2012-2013/4
“A Resolution in Support of a Fourth Floor Community Work Space”

I received this legislation that supports the establishment of a community workspace in the LBJ Student Center 4th floor, previously the cube space, with an all organizations large calendar and mobile furniture. I am in full support of the resolution.

I appreciate the leadership for the change in this space that will promote collaboration between student organizations and will give all student organizations a place to work. I agree that this new space reconfiguration will create a friendlier work environment for student organizations. This space was already altered this summer in collaboration with the ASG leadership and staff of the LBJ Student Center and it is my understanding that appropriate furniture has been selected in order to complete the project in the near future.

If you have questions, please contact me.
