## Position Description

**Title:** Business Analyst Intern

**Division:** Advisory

**Locations: Australia:** Sydney, Melbourne, Perth, Brisbane, Adelaide, Canberra & the Gold Coast. **China:** Beijing & Shanghai

**Periods:** 8 (summer) or 14 (full semester) week program periods.

### General Information:

Our Client, one of the “big 4” professional services firms, is a global network of professional services firms. Across 144 countries, 137,000 people provide Audit, Tax and Advisory services to a huge range of clients, from leading brands to public bodies, global multi-nationals and local businesses. The staff are professional, intelligent and talented; and they are complemented by an outstanding support network with opportunities to develop personally and professionally. Whatever we do, we work together. We seek to provide the best services for our firms’ clients; we aim to give meaningful insight, master the issues and deliver what businesses need to succeed.

### Background on the role:

In the Advisory division we specifically work with clients to identify and tackle their business issues and challenges. This could be helping businesses to grow, advising on restructuring, improving governance efficiency or identifying ways to enhance financial performance. The business world is a fast and changing environment, and we strive to help our clients succeed throughout economic cycles. Across Advisory some of the specific work we do involves;

- Identifying and valuing tangible and intangible assets
- Research into possible mergers/acquisitions involving background analysis, desk research and data analysis to assess value and identify business synergies
- Preparation and delivery of presentations, recommendations, reports and client pitches
- Interpreting financial data and explaining complex financial information in an understandable way
- Analysing information and identifying evidence in fraud enquiries

- Identifying areas for business improvement by analysing data and undertaking competitor analysis

### **Specific Duties & Responsibilities:**

Interns will specifically be responsible for the following;

- Research into possible mergers/acquisitions involving background analysis, desk research and data analysis to assess value and identify business synergies
- Preparation and delivery of presentations, recommendations and reports
- Interpreting financial data and explaining complex financial information in an understandable way
- Data and information analysis

### **Reporting Relationship:**

Interns work as part of a team on projects enabling them to interact closely with, and learn from senior colleagues. Our Interns report directly to a manager who will provide feedback on skills, learning and development so they can progress in the best possible way and make the most of every opportunity. All new interns are assigned a buddy who will be available to answer any general questions.

### **Competencies and Experience:**

Interns must have the ability to; Coordinate and Manage project driven tasks; Strong Planning, Organizational and Communicative (written and verbal) skills; Microsoft Office Suite familiarity; Educational background and experience related to Accounting, Finance, Economics, Business Administration, Marketing, Public Relations or Information Technology. Highly desirable for China based opportunities that the Interns are fluent in Mandarin.

### **Further Information**
