Additional Comments

- Please email VendorRequests@txstate.edu with ANY questions you have. Easier to answer lots of emails then fix problems later. 😊

- If a vendor sits in APPROVED status for over 24 hours, PW & SAP may not have ‘connected’ correctly. Vendor should be in SAP.

- With other Universities using PW now, it’s important to send email invite to the correct person so they can have one account with everyone. Also, it is best if a generic email is used.

- Bank validation is a critical part of the PW process. Registrations will be kicked back if PW is not able to reach them to validate the LAST FOUR of their bank account number. This is to protect both us and the vendor.
